### PROFESSIONAL EXPERIENCE

*Senior Geospatial Specialist - The Walt Disney Company, Global Security Control Center* (Aug. 2023 - Present)

- Developing dynamic maps and dashboards to visualize company assets and support security operations
- Collaborating with global partners to integrate geospatial insights into strategic planning
- Automating data management workflows to streamline processes and enhance efficiency

*GIS Analyst - TreePeople* (Apr. 2023 - Aug. 2023)

- Created Urban Forest Management Plans for three cities in Los Angeles County
- Provided expertise in mapmaking, spatial analysis, and data visualization to support team initiatives
- Collaborated with city officials to develop and implement each management plan

*GIS and Remote Sensing Analyst - NASA DEVELOP, Jet Propulsion Laboratory* (Jan. 2023 - Apr. 2023)

- Investigated the effects of tree canopy on heat mitigation in Los Angeles
- Leveraged satellite imagery analysis tools to process and interpret urban heat patterns
- Strengthened leadership skills by coordinating project timelines and facilitating team communication

*Remote Sensing Researcher - University of Oregon Remote Sensing Research Lab* (Oct. 2021 - Dec. 2022)

- Analyzed Landsat satellite imagery of the Greenland Ice Sheet's interaction with proglacial lakes
- Developed a custom Python algorithm to identify ice-water boundaries
- Co-authored a research paper published in the [Journal of Glaciology](#) by Cambridge University Press

### EDUCATION

*University of Oregon*

- Bachelor of Science
  - Double Major: Geography (GIS Concentration) & Spatial Data Science
  - Minor: Spanish
- Graduated *summa cum laude* with 4.21 GPA

### SKILLS

*Technical*

- Programming Languages and Libraries
  - Python (GeoPandas, NumPy, Rasterio, Matplotlib, scikit-learn)
  - JavaScript
  - ArcGIS Arcade
- Geospatial Tools
  - ArcGIS Pro
  - ArcGIS Online (Including Dashboards & Experience Builder)
  - QGIS
  - Google Earth Engine
- Design and Visualization
  - Adobe Illustrator & Photoshop
  - Canva
- Productivity and Automation Tools
  - Microsoft Office (Including advanced knowledge of Excel & SharePoint)
  - Microsoft Power Automate
  - Google Workspace

*Core*

- Problem solving and attention to detail
- Teamwork and communication

- Time management and organization

#### *Language*

- Advanced C1 level Spanish

### **AWARDS & ACADEMIC ACHIEVEMENTS**

#### *Global Security Encourages Creativity and Innovation Award — The Walt Disney Company (2026)*

- Recognized for fostering creative thinking and innovative problem-solving within the Global Security organization

#### *JPL Spring 2023 DEVELOPer of the Term Award — NASA DEVELOP (2023)*

- Selected as top-performing team member among peers at NASA's Jet Propulsion Laboratory DEVELOP program

#### *Irwin Holzman Award — University of Oregon (2022)*

- One of two undergraduates honored for outstanding academic achievement in the Geography Department

#### *Summit Scholarship — University of Oregon (2020)*

- Merit-based scholarship awarded for exceptional academic performance in high school

#### *Dean's List — University of Oregon (2020)*

- Recognized every term throughout undergraduate studies for maintaining a high GPA

#### *International Baccalaureate (IB) Diploma (2020)*

- Awarded upon successful completion of the rigorous IB diploma program, an internationally recognized pre-university curriculum
